Four-Dimensional Colour

My solo exhibition *Four-Dimensional Colour* was held at the *dot-art Gallery* in Liverpool from 10th-24th September 2016. I'm very pleased with how the show went and with the positive feedback the gallery and myself received; thanks to everyone who visited. It was great to chat to visitors in the gallery on the Launch Day, and throughout the exhibition whilst I was there working on the two ongoing paintings, *September 2016* and *The Year 2016*. *September, October, November* and *The Year 2016* will be available in January 2017.

Several paintings that were in the exhibition have gone to new homes; the remaining works exhibited that were not sold during the show are available through my [dot-art portfolio page](#), as well as a range of other new works. During the exhibition, I gave a Featured Artist interview to [ArtInLiverpool.com](#), which can be read [here](#).

New Limited Edition Prints: *Liverpool Composition* and *Wirral Composition*

Prints of '*Liverpool Composition*' and '*Wirral Composition*' are now available. The paintings these prints are taken from are acrylic paintings of my original competition-winning skyline designs – in 2011 I was the winner of Merseytravel's 'Design a New Skyline' competition, and my digital designs '*Liverpool Composition*' and '*Wirral Composition*' were made into murals on the panelling in the Birkenhead Tunnel, each 22m wide by 5m high.

The prints have been made using archival inks on 280gm smooth paper, limited to an edition of 75, complete with mount to fit a 30x40cm frame.

These prints have been selected to be shown in ***The Liverpool Collection*** exhibition at the *dot-art Gallery*, 14 Queen Avenue (off Castle Street), Liverpool, from 25 November 2016 to 21 January 2017. They are available from the Gallery, via my [dot-art portfolio page](#), and from the dot-art display at [REX: The Concept Store](#), Bold Street, Liverpool, or from myself.
